

PI-DIVISION MASK MAKING

Date: 10/07/2020

Venue: Home online

The world is facing a pandemic situation. The government of Kerala is taking lot of measures to control the spreading situation for to remove the virus from the society. It is by keeping social distance, cleaning hand with hand wash or soap etc, using sanitizer, wearing mask, avoiding social gathering and staying at home etc. Also volunteers of Mar Sleeva College had made masks at home and distributed them in the college. They had also prepared a video which showed how to make masks at home at least cost and had shared them to the public. The college had also participated in these activities to reduce the risk of pandemic situation.
