

FARM VISIT

Fish farming involves raising fish commercially in tanks or enclosures, usually for food. The major freshwater farming environments in India are pond, cage, pen, rice field, sewage feed and air breathing. Polyculture is the dominant culture system practiced. The major species are carp, freshwater prawn and catfish

Organic farming cell of Mar Sleeva Collge Of Arts And Science organized a farm vist on 4/03/2022 at 1.30 pm to 2.30 pm.during this farm visit 28 organic farming cell members along with 3 faculty coordinators visit a fish farm at thopramkudy.

during the visit studnets get a chance to understand water management system.aeration technology,feedind,and Fertilizer Application in the Pond
