

⑥ NATIONAL WEBINAR 2 - GROUND
WATER HYDROGEOLOGY & QUALITY

Date : 12/12/2020

On 12th December 2020, the PGI department of Geology, Mar Skeva College of Arts and Science conducted a National webinar on 'Ground water Hydrogeology and Quality'. The key speaker was Caroline Louis, Scientist, Central Ground water board, Hyderabad. About 100 participants participated in the National webinar conducted by the PGI department of Geology. In this webinar, the key speaker introduced Ground water quality and factors influencing the quality of ground water. She talked about the hydraulic properties of rocks, types of aquifers, storage properties of aquifers and also spoke about the career opportunities in Geology after Masters in Geology.

Objectives

- To assess the depth to water level
- To study the hydro chemical behavior of ground water.
