

WORLD ENVIRONMENT DAY

Date: 05.06.2020

Venue: Home online

World environment day was celebrated on June 5th by planting trees by all the Nss Volunteers and teachers in their home, due to the pandemic situation, Nss volunteers had made a video related to the environment. The video emphasized the importance of the environment, how nature is related to the life of human beings, correlation between modern life style and environment and significance of waste management etc. They launched a programme TRASH TO TREASURE in which students made craft from waste. These types of programme promote the reuse of materials and reduce the waste products. The goal of this environment day was to raise awareness about the importance of environment to the public and how to create treasure from the trash.
